## **Budget for 2019**

### **Summary Information**

The 2019 Budget has been prepared with reference to the Bank's operational priorities and strategies as laid out in the Medium-term Strategy and Business Plan (MTSBP) of BSTDB for the period 2019-2022.

There were modifications for the 2019 Budget relative to the initial version that increased the loans and borrowings portfolios, and their related interest income and expense, as approved by the Board of Directors at its meeting on 20 September 2019. This budget represents the priorities and operational activities, and the resources required for their successful implementation.

In terms of financing instruments, loans will constitute the main form of financing, with the Bank less open to employing equity. The Bank will provide various forms of short to medium-term financing, targeting mostly real sectors projects, and will also continue to offer credit lines for financing SMEs and trade activities through financial intermediaries. In addition, the Bank will consider provision of various forms of guarantees and other risk sharing instruments for investments undertaken in Member Countries.

The primary operational emphasis of BSTDB in 2019 would be a sizeable and manageable portfolio expansion. The Bank will focus on maintaining portfolio quality and on generation and preparation of projects with higher development impact, for meeting Regional expectations. Consequently, revenues from operations are budgeted to be higher, although the Bank applies interest rates, with margins and fees, applicable to projects in the Bank's efforts to remain competitive in the market. Revenues from treasury activities are also projected to be higher, while administrative expenses are budgeted to increase slightly. Net income has been budgeted to be positive as realized in the previous years.

For the Bank's long-term borrowing needs the Board of Directors also has approved a modified maximum borrowing limit for 2019 an amount of €1.7 billion, which increased by €500 million relative to the initial version, in its above mentioned meeting to accommodate the new borrowing program.

The Bank's revenues, business volume and administrative expenses are summarized in the attachments.

Pursuant to Section 12 of the By-Laws of the Bank, the annual administrative budget was presented to the Board of Governors at its annual meeting on 16 June 2019.

### Summary of Revenues, Expenses and Net Income

---

Budget Summary	In EUR
